

# Beaver County Project Recovery

## Single Point of Accountability (SPA)

## Fact Sheet April 2013

Project Recovery envisions a System of Care (SOC) where all people can easily access a welcoming, effective, and efficient SOC that inspires hope, and integrates treatment based on the needs of the individuals, not the needs or conveniences of the system, and where individuals and families with lived experience have the opportunity to experience maximum success toward recovery or improved lifestyle.

One goal of Project Recovery is to “build on and expand the Comprehensive, Continuous, Integrated System of Care (CCISC) model.” The Single Point of Accountability (SPA) staff collects data overtime on consumers in the SOC. Figure 1 displays SPA enrollments by Federal Fiscal Quarter. Beginning in May 2011 through March 2013, Project Recovery was expected to enroll 191 consumers. As of March 2013, the five SPA sites—Heritage Valley Health System’s<sup>1</sup> Community Treatment Team (CTT) and Staunton Clinic, Beaver County Behavioral Health, Glade Run Lutheran Services, and NHS Human Services’ F/ACT Team—have enrolled 235 consumers; 23% more than Project Recovery’s initial grant target. Additionally, all SPAs except for the F/ACT Team provide blended or enhanced case management services.

Figure 2 displays the SPA reassessment rate by quarter. SAMHSA requires a reassessment rate of 80% per quarter and fiscal year. Project Recovery has achieved an 89% reassessment rate in the most recent quarter with two SPAs recording a 100% reassessment rate for January through March 2013. Additionally, three of four SPAs achieved an 82% or better annual reassessment rate in Year 2 (Year 3 data will not be available until October 2013). SPA staff and supervisors were provided \$5.00 gift cards for reaching their enrollment or reassessment targets in the most recent quarter. The trajectory of SPA enrollments and reassessments remains positive.

<sup>1</sup> CTT closed in January 2012 and Staunton Clinic opened, as a SPA, in February 2013. Please direct comments or questions to [hwald@hpwassoc.com](mailto:hwald@hpwassoc.com)
