

Project Recovery

Executive Summary

Project Recovery envisions a System of Care (SOC) where all people can easily access a welcoming, effective and efficient system of care that inspires hope, and integrates treatment based on the needs of the individual, not the needs or conveniences of the system, and where individuals and families with lived experience have the opportunity to experience maximum success toward recovery or improved lifestyle. The time frame for this report is Year 5, October 2014 – September 2015.

Successes realized during this year are delineated below:

- Increased understanding of the current state of the mental health transformation
 - Mental health transformation priorities determined and indicators refined
 - Baseline data collected for indicators related to trauma informed care, training, the integration of physical and behavioral health, and education and employment
- Multiple trainings occurred within the system of care
 - Twenty trainings
 - More than 530 people attended
- Improved coordination of care
 - 125 new consumer enrollments totaling 590 enrollments throughout the course of the project
 - Two new SPA providers added to Electronic Service Plan (eSP)
- Improved consumer outcomes from baseline National Outcome Measures (NOMs) to 12-month follow-up
 - 4.7% increase in consumers who report their overall health as “Excellent,” “Very Good,” or “Good”
 - Seven out of eight indicators regarding functioning in everyday life improved over time
 - Alcohol use within the last 30 days decreased from 26.2% reporting use at baseline to 22.6% at 12-month follow-up
 - All four indicators in the social connectedness category improved
- Committees and subcommittees continue to meet regularly
 - Steering Committee
 - Quality Improvement Subcommittee
 - Single Point of Accountability (SPA) Subcommittee
 - Employment Transformation Subcommittee
 - Change Agent Group

Challenges encountered during Year 5 include maintaining 51% peer involvement, accurately measuring the mental health transformation priorities, and the integration of physical and behavioral health. This report discusses the successes achieved as well as the challenges encountered and the attempts that were made to overcome them.
