About Us

We are a portable on-site dental team comprised of a DENTIST and 1 or 2 registered dental hygienists.

A "Dental Day" will be promoted in which we schedule about 15-50 of your children ages 0-21 years old in need of dental care. Our services include a complete dental exam, prophylaxis (cleaning), fluoride varnish, X-rays, sealants, oral hygiene instruction, and diet counseling. Our team with 25 years of experience will set up in a designated spot in your pediatric office. We utilize locations convenient to families. All personnel are licensed in the state of PA, insured, follow all OSHA and HIPAA regulations, and have all child abuse clearances and mandated reporter training.

* If office space is an issue, we can use an off site location nearby.

Miracle Dental Associates

Introducing On-Site Dental Care

- We solve transportation issues by being in locations accessible to many families.
- Partnering together, we can capture children not seeing a dentist and complete preventative dental care.
- We have multiple offices and multiple sedation options for those that may need dental treatment.
- No cost to the parent.

Call us today! We can get these children the dental care they deserve.
