

Psychiatric Rehabilitation

Empowering People in Communities (EPIC)

“EPIC has taught me about my illness and helped me learn ways to cope with my symptoms.”

— Actual participant

EPIC assists adults who struggle with serious, persistent mental health diagnoses develop the necessary skills to overcome the functional impairments they experience as a result of their mental health.

About EPIC:

EPIC is a skills development program designated for adults 18 years and older to develop the necessary skills to overcome functional impairments that are experiencing within the following areas:

- Social
- Independent Living
- Education
- Vocation
- Wellness/Illness Management

Our program works with individuals and their treatment supports with the intention of promoting functional living, working and socializing in their communities of choice.

Admission Requirements:

To receive psychiatric rehabilitation services through EPIC, individuals must:

- be 18 years and older with a diagnosis of a serious and persistent mental health disorder.
- have identified functional impairments within one or more of the following domains: social; independent living; education; vocation; wellness/illness management.
- have a completed and signed referral recommending psychiatric rehabilitation services by an LPHA agent (Licensed Practitioner of the Healing Arts).
- be a willing participant in the service.

Location:

Glade Run EPIC Center
125 W. New Castle Street
Butler, PA 16001

Our site-based program utilizes structured groups where members learn, develop and practice needed recovery skills. Site-based groups are offered in Butler County, Monday – Friday.

Our mobile program works one-on-one with members in their home or community helping them to learn, develop and practice needed recovery skills. Mobile services are offered in Butler and Beaver Counties.
