

Beaver County Plans of Safe Care Presents:

Guided Growth: Drugs, Alcohol, Pregnancy and the Vulnerable Child

Dr. Ira Chasnoff MD

Children prenatally exposed to alcohol and drugs face increasing neurodevelopmental challenges as they grow and develop. These challenges translate into behavioral and learning difficulties in the classroom and in the home. This session will provide a conceptual framework for understanding these difficulties from a regulatory perspective and discuss how this framework can be applied to the development of behavioral and educational interventions in the classroom and at home.
